

**Life is full of opportunities just waiting to be discovered. Hearing loss shouldn't keep you from exploring.**

ARTIS™ 2 hearing instruments from Siemens offer a unique blend of state-of-the-art technologies to support people with hearing loss:

- DataLearning™
- e2e wireless™
- Feedback cancellation
- eWindScreen™
- Speech and noise management
- Automatic and adaptive directional microphone system

Find out how ARTIS 2 can help you appreciate all that life has to offer. Call for an appointment today.

Hearing instruments help many people hear better, but cannot solve every hearing problem or restore normal hearing. © 2007 Siemens Hearing Instruments, Inc. All rights reserved 5/07

ARTIS 2 Ad #1 • 2 column (4.25") x 5"

Life is full of opportunities just waiting to be discovered. Hearing loss doesn't need to keep you from them, thanks to ARTIS™ 2 hearing instruments from Siemens.

ARTIS™ 2 offers a unique blend of state-of-the-art technologies to support people with hearing loss. Features like DataLearning™, e2e wireless™, feedback cancellation, and an automatic and adaptive directional microphone system offer great hearing comfort and convenience. And, ARTIS 2 is available in a full range of styles from the tiny Micro-CIC™ custom instrument to the easy-to-wear open-fit Life BTE to meet every hearing loss need and cosmetic preference.

Find out how ARTIS 2 can help you appreciate all that life has to offer. Call for an appointment today.
