GROWTH SPURTS FROM NUK

Dear Nancy,

With what seems like new teeth popping up every day, is there anything better than seeing your little one's big, bright smile? Help keep it healthy by laying the foundation for great [dental care](#) now.

Consistency in brushing routines now can help develop good habits that last a lifetime. Twice a day, use a small soft bristle toothbrush and tiny amount of toothpaste, like [Grins & Giggles Infant Tooth & Gum Cleanser](#), to begin [tooth brush](#) training.

Let her hold the tooth brush and use it, but you'll need to help your little brusher get all her teeth. And, be sure to let her see you [brushing your teeth](#) to set a great example. Dental professionals suggest a first visit to a [pediatric dentist](#) be scheduled when the first tooth appears, which is usually between 6 and 12 months. Early exams and prevention will help protect her cute grin.

NUK® offers lots of information and advice on tooth care. Visit our [oral care section](#) and check out our [products](#) developed especially for little teeth and gums. Bright, happy smiles begin with healthy, clean teeth and gums!

Bright, happy smiles begin with healthy, clean teeth and gums!

Growing Up with NUK

With a berry taste toddlers will love and an easy to grip toothbrush, [Grins & Giggles Infant Tooth & Gum Cleanser](#) is a great way to start your little one on the road to great dental care habits.
